AN ACT concerning smoking in indoor public places and workplaces and revising parts of statutory law.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey: C.26:3D-55
Short title.

1. This act shall be known and may be cited as the "New Jersey Smoke-Free Air Act." C.26:3D-56 Findings, declarations relative to smoking in indoor public places, workplaces.

2. The Legislature finds and declares that: tobacco is the leading cause of preventable disease and death in the State and the nation, and tobacco smoke constitutes a substantial health hazard to the nonsmoking majority of the public; the separation of smoking and nonsmoking areas in indoor public places and workplaces does not eliminate the hazard to nonsmokers if these areas share a common ventilation system; and, therefore, subject to certain specified exceptions, it is clearly in the public interest to prohibit smoking in all enclosed indoor places of public access and workplaces.

C.26:3D-57 Definitions relative to smoking in indoor public places, workplaces.

3. As used in this act:

"Bar" means a business establishment or any portion of a nonprofit entity, which is devoted to the selling and serving of alcoholic beverages for consumption by the public, guests, patrons or members on the premises and in which the serving of food, if served at all, is only incidental to the sale or consumption of such beverages.

"Cigar bar" means any bar, or area within a bar, designated specifically for the smoking of tobacco products, purchased on the premises or elsewhere; except that a cigar bar that is in an area within a bar shall be an area enclosed by solid walls or windows, a ceiling and a solid door and equipped with a ventilation system which is separately exhausted from the nonsmoking areas of the bar so that air from the smoking area is not recirculated to the nonsmoking areas and smoke is not backstreamed into the nonsmoking areas.

"Cigar lounge" means any establishment, or area within an establishment, designated specifically for the smoking of tobacco products, purchased on the premises or elsewhere; except that a cigar lounge that is in an area within an establishment shall be an area enclosed by solid walls or windows, a ceiling and a solid door and equipped with a ventilation system which is separately exhausted from the nonsmoking areas of the establishment so that air from the smoking area is not recirculated to the nonsmoking areas and smoke is not backstreamed into the nonsmoking areas.

"Indoor public place" means a structurally enclosed place of business, commerce or other service-related activity, whether publicly or privately owned or operated on a forprofit or nonprofit basis, which is generally accessible to the public, including, but not limited to: a

"Person having control of an indoor public place or workplace" means the owner or operator of a commercial or other office building or other indoor public place from whom a workplace or space within the building or indoor public place is leased.

"Smoking" means the burning of, inhaling from, exhaling the smoke from, or the possession of a lighted cigar, cigarette, pipe or any other matter or substance which contains tobacco or any other matter that can be smoked.

"Tobacco retail establishment" means an establishment in which at least 51% of retail business is the sale of tobacco products and accessories, and in which the sale of other products is merely incidental.

"Workplace" means a structurally enclosed location or portion thereof at which a person performs any type of service or labor.
